PHLEBOTOMY PROGRAM

The Phlebotomy Technician program prepares graduates for entry-level positions as phlebotomists in hospitals, clinics, Laboratory Service Centers and physician's offices.

Our LFS/DHS approved CPTI program includes 48 hours of lecture and 40 hours of practical experience at nearby externship sites. No medical experience is required to enroll in the course.

Upon completion of the program, students will have met all of the State of California's requirements to become a Certified Phlebotomy Technician I (CPT1). Passing a National Certification examination is also required and will be given on campus after

**National Certification Exam
November 16th, 2019 @ 10:00am
(Room #D108)**

Barstow Community College

Certified Phlebotomy Technician Course (CPT1)

Phlebotomy Technicians are in demand as one of the fastest growing occupations in healthcare. Launch your career as a Certified Phlebotomy Technician 1. Collect blood samples from patients in a hospital, clinical laboratory, medical office, or clinical setting. Through lectures and hands-on training, learn what you need to know about the circulatory system, venipuncture technique, specimen collection, risk factors, complications, and quality assurance. This course provides a complete learning experience—with 48 hours of classroom instruction and a 40-hour hands-on externship. The course is also designed to prepare you to take the National Certification exam to become a California Certified Phlebotomy Technician 1 (CPT1).

A certificate of completion is awarded upon successful completion of the course. You must be at least 18 years old and have a high school diploma or equivalent.

To Register for the course, please visit www.AUMTInstitute.org or call (760) 952-2121
