

Student COVID-19 Decision Tree

Communication with your instructors and Human Resources is **REQUIRED** and very important during this process. You must contact your instructor for guidance before following the below steps.

Test Positive for COVID-19 or have Symptoms:

- **DO NOT COME TO CAMPUS**
- You may need to quarantine for up to 10 days starting from symptom onset.
- Your quarantine may end after day 5 if:
 - o You are fever-free for 24 hours (without the use of fever-reducing medication)
 - o Your symptoms are significantly improving.
- Returning to campus will include wearing a mask for 10 calendar days. [Click here to learn more.](#)
- If you still have a fever or other symptoms that have not improved, continue to quarantine until they have significantly improved and seek guidance from Human Resources. You should also contact your instructor(s) to discuss next steps, class participation, and any potential missed classes. If you have additional questions about guidance, you should contact Brandon Erwin at berwin@barstow.edu.

Close Contact to COVID-19:

- If you have symptoms, please follow the guidance for experiencing COVID-19 symptoms.
- If no symptoms are present, no need to quarantine at this time.
- Wear a mask for 10 days after exposure. [Click here to learn more.](#)
- You should test after 5 days of exposure.
- Monitor symptoms closely.
 - o If you develop symptoms or test positive, **DO NOT COME TO CAMPUS** and follow guidance for testing positive for COVID-19.
- If you notified by the health department or by a medical professional of an exposure, and are given additional guidance, please consult Human Resources. Note: Exposures must be reported via the Daily Health Check.
