

BNSF is hiring now!

8 New Positions!

Operations Management Trainees (ASSOCIATE DEGREE)

- **MECHANICAL** - Responsible for the reliability and availability of all rolling stock (locomotives and freight cars) and the inspection, service, maintenance, and repairs
- **ENGINEERING** - Responsible for building and maintaining the BNSF infrastructure (track, bridges, signal systems, structures, and buildings)

This Operations MT program is designed for recent associate degree graduates with a two-year vocational or technical degree in the trades and less than four years of full-time, professional work experience.

OUR OPERATIONS MANAGEMENT TRAINEE PROGRAM PROVIDES:

- Full-time, competitive salary
- Robust employee benefits and perks
- A one week railroad overview orientation at our Ft. Worth, Texas corporate headquarters
- Hands on training at our Overland Park, Kansas training center before heading to your BNSF location
- Relocation package for those who are eligible
- Networking opportunities with our leadership and Business Resource Groups
- Annual paid leadership training
- Involvement in projects that impact the business ▪ A diverse and inclusive work environment
- Employee assistance programs

APPLY TODAY. We offer many pathways to a rewarding career and the chance to build valuable skills.

Join our team that moves the nation like no one else can.
