

Email Guide

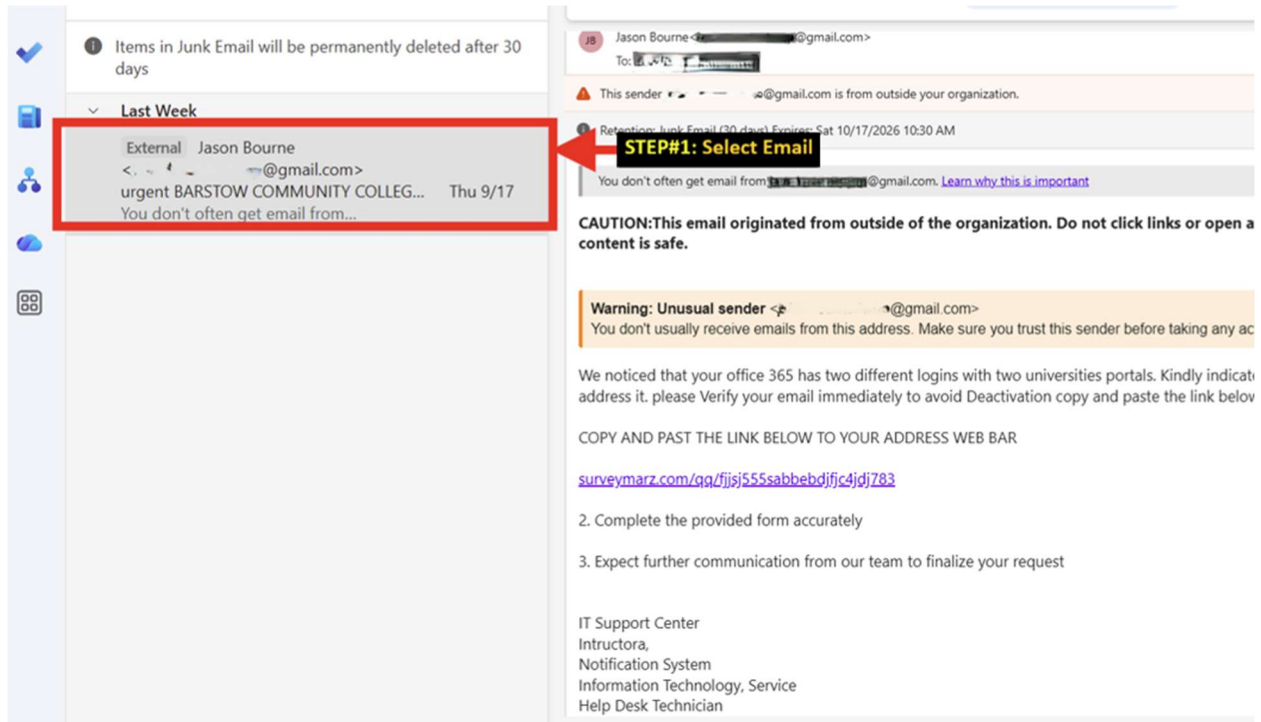

Report Phishing

Example Phishing Email

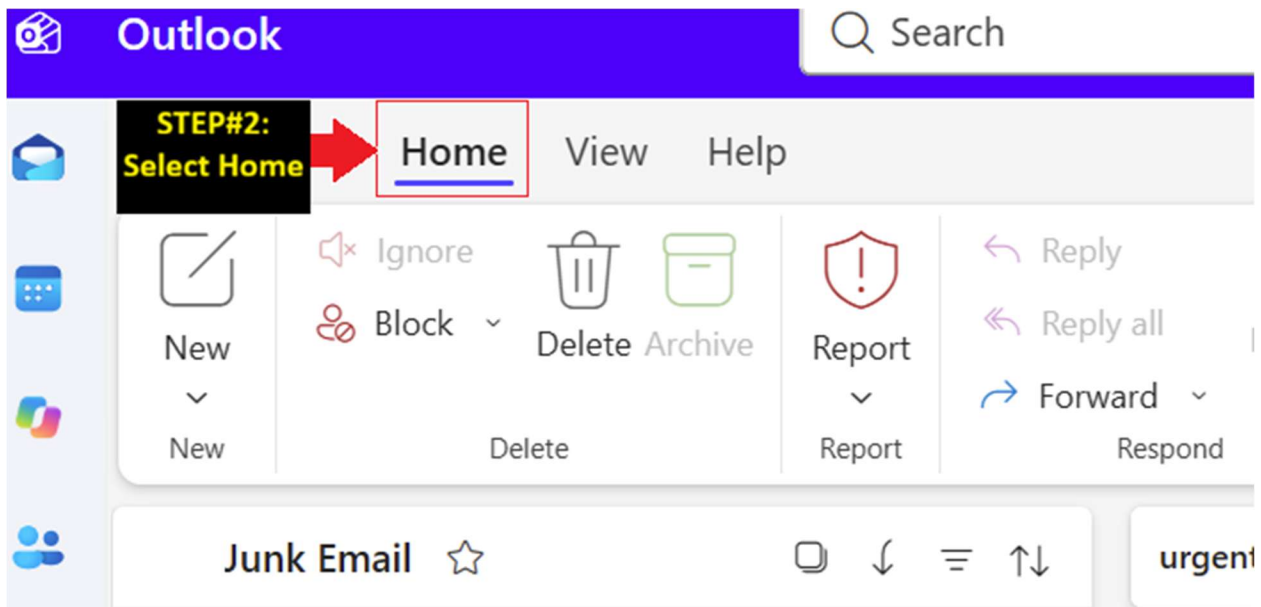

Disclaimer: This works for both Desktop and Web Versions of the App. Though mobile versions may vary. This includes Android at the end (Later updates include iPhone).

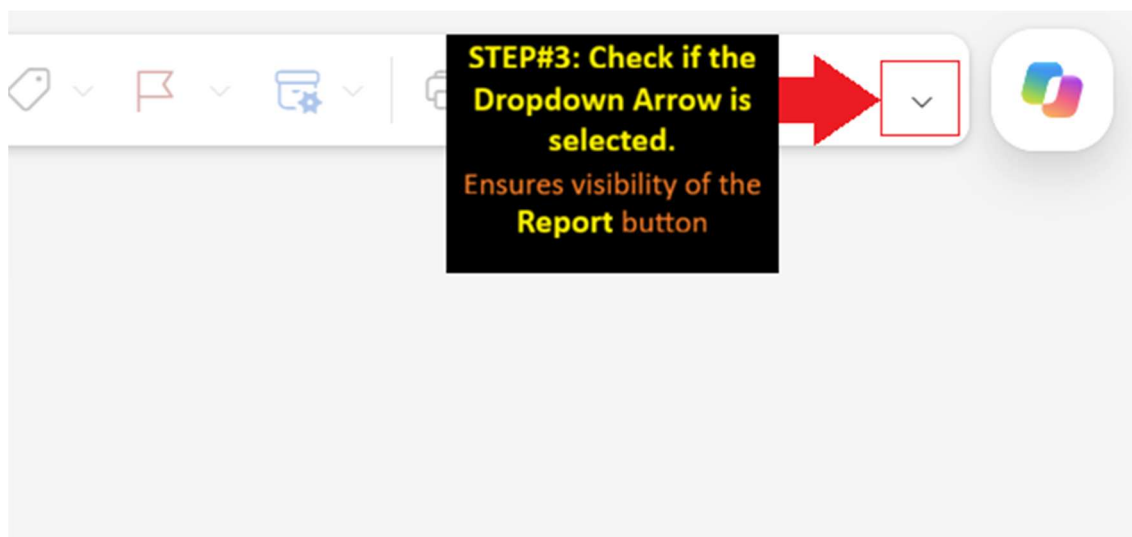

Step#1 – Select the Suspicious Email

Step#2 – Select Home

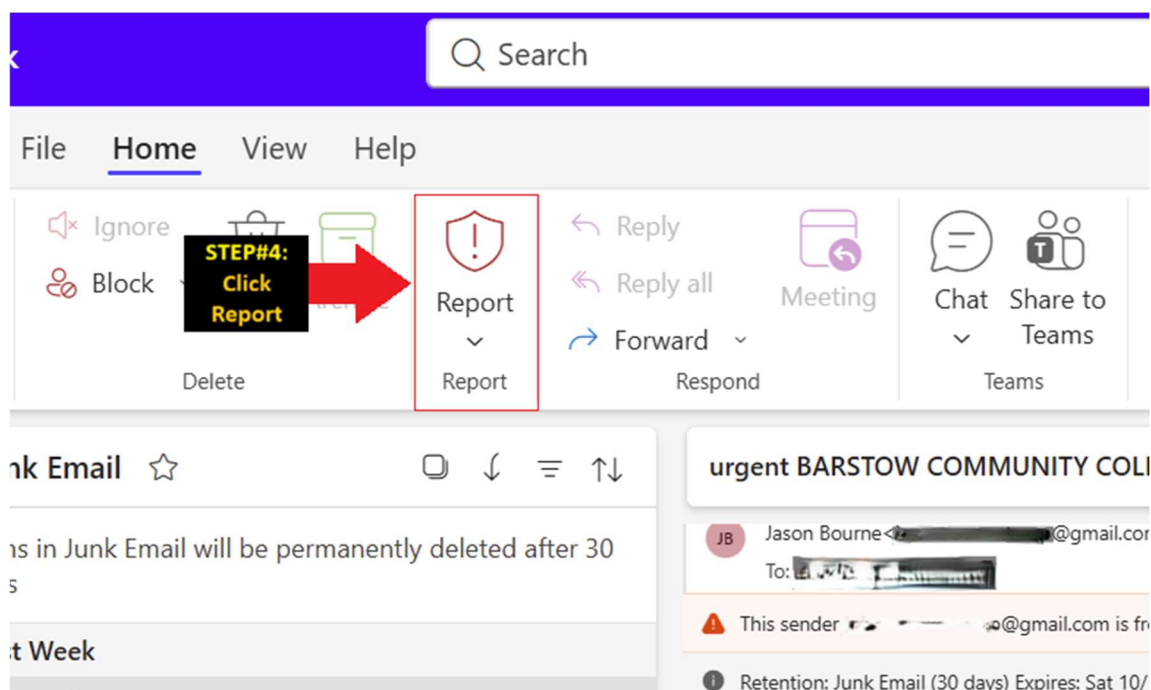

Step#3 – Check if Dropdown Arrow is Select.

💡 Note - This ensures better visibility of the Report Button.

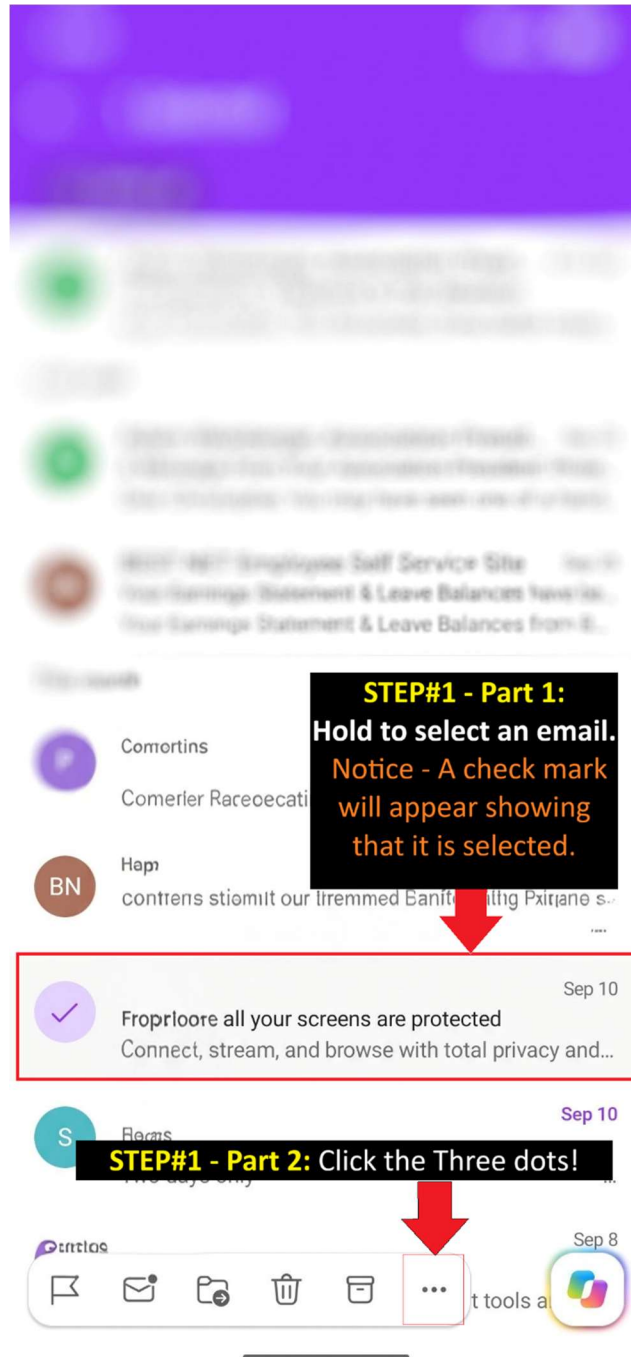

Step#4 – Click Report

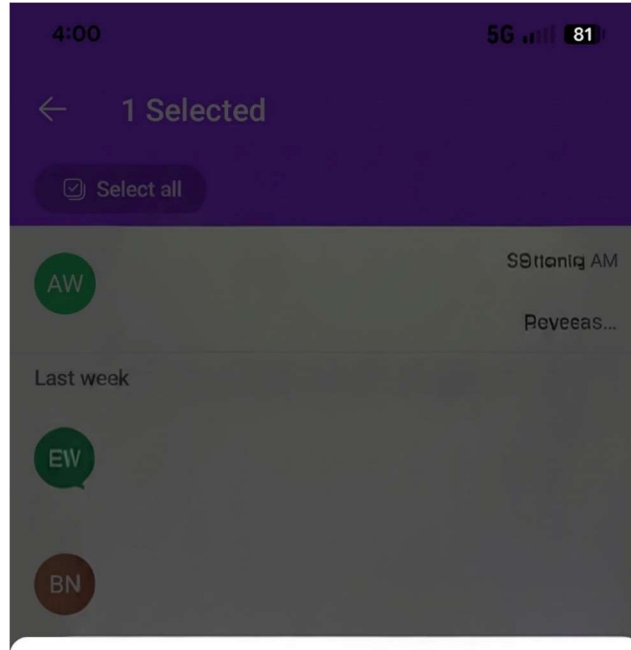

💡 Note - The report button also has a dropdown menu. If this is selected click on Report as Phishing.

Report on Android Devices

Step#1 – Select and Click

Step#2 – Click Report Phishing

STEP#2:
Click Report
