Employee Timesheet Frequently Asked Questions (FAQ)

Last Updated: September 2026

A: Classified Semi-Monthly Employees enter on the pay date field either the 15th or the last working day of the following month after the completion of the overtime timesheet.

Q: When I complete my [Classified Semi-Monthly Employee Timesheet \(Overtime/Comp Time\)](#), can I include hours from the previous month?

A: No.

Classified Semi-Monthly Employees must only report hours worked during the month being reported.

Example:

- July timesheet = July hours only
 - June hours must be reported on a June timesheet.
-

Q: What if I have multiple Overtime Authorization Forms with different budget numbers?

(This only applies to Overtime submissions to Payroll to process for payment)

A: Separate timesheets must be submitted for each Authorization Form when the budget numbers are different.

Each timesheet should only include the hours associated with the corresponding Authorization Form and budget code.

Example:

- You worked overtime for the Viking Bookstore under one budget code and have an approved Authorization Form.
- You also worked overtime for an M&O event under a different budget code and have a separate Authorization Form.

In this situation:

- Submit one Classified Semi-Monthly timesheet for the Viking Bookstore overtime hours and attach the Viking Bookstore Overtime Authorization Form.
- Submit a separate Classified Semi-Monthly timesheet for the M&O overtime hours and attach the M&O Overtime Authorization Form.

Important

- Do not combine hours from different budget codes on the same overtime timesheet.
- Each timesheet must correspond to the appropriate Authorization Form and budget code.
- Multiple Authorization Forms may only be combined into a single PDF when they are for the same month and the same budget code.

Multiple Assignments & Positions

Q: I am a Temp/Substitute/Professional Expert, with two Temp Agreements, and work in two different departments. Do I need to complete two different timesheets?

A: Yes.

You must complete a separate timesheet for each work assignment.

Each timesheet should only include the hours worked for that specific position and department.

Example:

If you work as:

- A Substitute in the Library, and
- A Substitute in another department,

you must complete:

- One timesheet for the Substitute assignment for the Library.
- One timesheet for the second assignment.

Important

- Monitor your combined work hours across both positions.
- Ensure you do not exceed your authorized NTE Hours Per Week when the hours from both positions are combined.
- Report only the hours worked for the specific assignment on each timesheet.

Lunch Periods

- Take required lunch periods in accordance with district policy.
- Record lunch periods accurately on each timesheet when applicable.

Overlapping Hours

- Hours reported on one timesheet must not overlap with hours reported on another timesheet.

Example:

You cannot report:

- Library worked hours from 1:00 PM to 3:00 PM, and SPS hours from 2:00 PM to 4:00 PM on the same day because the hours overlap.
